Briefs.

—Remember the "May party," at Apollo hall, this evening.

—The Knights of Pythias assemble in Castle hall this evening.

—There were no arrests made last night by the police force.

—There was no criminal business before the municipal court to-day.

—Janesville city lodge No. 90, I. O. O. F., meet in Odd Fellows hall this evening.

—The annual meeting of the Y. M. C. A., will be held in their rooms on Wednesday evening at 8 o'clock.

—Illinois strawberries are plenty in this market now, selling at 18 cents per box. The berries are ripe and of good flavor. There are also plenty of the Tennessee strawberries, which the dealers are anxious to get rid of at a shilling per box.

—Our state exchanges are just now comparing the temperature of the weather with that of last year, and, with the exception of Sunday and Monday, the 20th and 21st, the comparisons are greatly in favor of the present season for mildness.

—On the fact that farmers are all very busy just now, our streets do not appear very lively with trade, but all dealers are feeling well over their business transactions in doors, and we hear but little complaining on account of dull trade.

—Franklin street, between Milwaukee and Pleasant, has been so thoroughly cleaned and repaired, that it is now in capital order, and looks as neat as a pin. The good work of cleaning and repairing all the business streets is progressing as rapidly as the street commissioner can attend to it.

—Ice formed in many places in this city last night. In nearly all cases where water was left in small vessels out doors, they were found covered with ice this morning. The severe cold has undoubtedly injured the fruit prospects in this section, but it is yet too early to estimate the extent of the damage.

—There is now some talk of building a foot bridge over Rock river in the neighborhood of the new cotton factory and the McLean woolen mill, for the purpose of accommodating those employed in the factories who reside on the opposite side of the river. It may end in talk—possibly in a bridge.

—The new livery stable of Mr. Will Davis is so near completed that that gentleman is moving in his livery stock from the Myers house barn. The new lessees of the Myers barn, Messrs. Stevens & McKoy, will now commence the remodeling of the building for use as a tobacco warehouse and cigar manufactory, and expect to be in full operation some time next month.

—There will be an illustrated lecture at the Baptist church next Friday evening, called "A trip through Palestine," by Rev. S. P. Davis, of Morgan Park, near Chicago. A painting will be used which is 20x10 feet, giving a panorama view of the Holy Land. The lecture is not only interesting, but the painting gives an exceedingly interesting view of the land about which clusters so much sacred history. The admission will be 25 cents only for adults, and children 10 cents.

—The Beloit Free Press, of last evening, reports that "Hon. S. J. Todd continues to show a gradual daily improvement, and their seems to be every reason to hope for and expect his restoration to a condition of health at no distant day. Dr. Strong is confined in bed for seven days, he got up for the first time yesterday and made Mr. Todd a visit. Last night he suffered considerably, and to-day is not as comfortable as it was hoped he would be." Mr. L. Holden Parker is able to be out.

—From the Oshkosh Northwestern, of Saturday, we learn that "The Milwaukee & St. Paul bridge at Horicon was burned yesterday afternoon, and when the regular train due here in the evening reached that point the passengers had to be transferred to a train run down from Ripon. To-day passengers are being transferred at that point, while a large force of men has been set to work building a new bridge, which will be ready for trains to pass over it by Monday next. It will delay freight trains to that extent, but there will be no interruption of passenger travel."

The Weather.

REPORTED BY PRENTICE & EVENSON, DRUGGISTS.

At seven o'clock this morning the thermometer registered 33 degrees above zero. Clear. Wind brisk from the north.

At 1 p.m. the register was 50 degrees above zero. Clear, with a strong north wind. For the corresponding hours one year ago the register was 43 and 50 degrees above zero.

WASHINGTON, May 22, 1 a.m.—The following are the indications for to-day:

Upper Lake Region and Upper Mississippi Valley—Warmer fair weather, northerly shifting to southerly winds, stationary or lower pressure.

A vigorous growth of hair is promoted and the youthful color restored by applying Parker's Hair Balsam.

The Entertainment of Mrs. J. V. Day's Pupils.

The entertainment given by the pupils attending the training school of Mrs. J. V. Day, in Lippin's music hall, last evening, was a great success. The music hall was well filled, in fact the lower part of the hall was full, while a large number of ladies and gentlemen occupied prominent seats in the gallery. The programme, although necessarily quite a lengthy one, was well arranged and faithfully followed, each one of the pupils appearing, showing unmistakable signs that they had been under the instruction of one well qualified to be a teacher. The best number on the programme was the scene from the School for Scandal, in sign language, by Miss Maggie Hutton and Mr. W. E. Deibel, both graduates from the Delavan deaf and dumb institute. Mrs. Day read the selection, standing at one side of the mutes. So rapidly and well did they make the signs of the language, that they were in perfect time with Mrs. Day's excellent reading of the lines, and the rapidity with which the mutes made their signs and gestures brought forth general applause. The music by Smith & Slocum's orchestra with Mrs. Deibel, pianist, was another pleasing part of the entertainment. The following are the names of the pupils who took part in the exercises, all of whom were dressed especially for the occasion, while the smaller ones appeared like little fairies, particularly in the final tableau of the May Queen and the May Festival:

Master Herbie Ford, Miss Grace Knoff, Miss Hattie Nelson, Miss Nellie Sullivan, Mattie Shopbell, Willie Galbraith, Mamie Shopbell, Miss Maggie Hutton, W. E. Deibel, Frank King, Miss June Griswold, Miss Lillie Golden, Miss Ragaa Olson, Miss Fannie Spencer, Miss Lorena McHenry, Miss Ida Fox, Miss Susie Hutchinson—Mr. A. C. Sauer, Cora Parker, Susie Gray, Charlotte Gray, Nellie Blakey, Cora Nelson, Gertrude Corning, Johnnie Wilcox, Lizzie Griswold.

Mrs. Day is to be congratulated upon the success of her entertainment, and the marked proficiency of her elocutionary class.

Circuit Court.

The appeal case of James Churchill et al. vs. W. F. Bentley, mentioned in last evening's Gazette, was concluded at 2:30 o'clock this afternoon, and given to the jury at that time. The jury had not returned a verdict at three o'clock.

The case of M. E. Waite vs. H. A. Skavlem and others, is now on trial. This is an action brought by the plaintiff to recover damages for an alleged false imprisonment. Messrs. J. W. Bates and Wm. Smith appear as the attorneys for the plaintiff, and Messrs. Winous & Fellers, E. M. Hyzer and J. W. Sale, for the defendants. There is much interest manifested in this case, and quite a number of citizens are in attendance at the trial.

Fine Cattle.

Mr. Thomas H. Austin, of Johnstown, one of the most successful farmers and stock raisers in Rock county, brought a drove of sixty-eight head of fine beef cattle into the city this morning, as are generally seen in one lot. There were no bulls or poor cattle among the herd, but all were plump and fat, and were uniform in size making a handsome appearance while passing through the city on their way to the stock yards. They will be shipped to Chicago to-day by Mr. Austin. He will no doubt realize a handsome sum of money in disposing of the herd in that market. Their gross weight, as reported by the weigher at the stock yards in this city was 95,550 pounds, which would make the average weight of each head 1,405 pounds.

April 30, 1893.

Milton.

The Norse students of Milton college celebrated the fourth anniversary of the independence of Norway by a picnic at Lake Koshkonong, on the 17th inst., although the inclemency of the weather marred to a great extent the pleasure of the participants, yet they made the most of it. The foramen was mostly occupied by boat excursions on the lake. After having dined they gathered in at a splendid dinner at the hotel and by the hour of speeches had quite a pleasant time. Speeches were made by P. S. Botte, subject "Vi Kings," J. P. Munson on "Our adopted Fatherland," and by Prof. Evenson on "The 17th of May, its importance and significance." The day is celebrated in commemoration of Norway's separation from Denmark. About 400 years before that time, Norway, Sweden and Denmark formed the so-called "Three Kingdoms," under the reign of Queen Margaretha. The Semiramis of the north, each kingdom having separate constitutions, but united by a common language, laws, and customs. In the year 1380, King Håkon, being a weak and feeble man, was overthrown by a Danish prince, who became king of Norway. At the time of the overthrow of Håkon, Norway took advantage of the favorable circumstances, and declared its independence. Representatives of the people met and wrote a constitution and on the 17th signed it and proclaimed the independence of the land. Norway has since been the freest constitution of any way having existing. Its congress "Storting" consists of one chamber. Its members are chosen by the people and it imposes taxes, appropriates money for salaries, pensions, and other expenditures. A bill passed twice by the Storting, becomes a law. After three successive readings by the king or law, whether assented to or not, a resolution was passed by the "Storting" over the king's veto. In September 1814 Norway united with Sweden under one king, remaining entirely independent in her union with that country.

—The Christian association of the college was represented at the session of the American Christian association, in Milwaukee, by Miss M. E. Ross and W. D. Spencer, as delegates, and Miss Lulu Walker and Messrs. C. M. Post, C. W. Post, M. D., O. S. Mills, C. A. Armstrong, C. F. Page, S. McHenry and others.

—Mrs. Hannah Orum has gone to Battle Creek, Michigan, for treatment at the sanitarium located there from New Jersey Saturday night. Mrs. Orum will arrive Saturday night.

—Alfred Walker is dangerously ill at the present writing, but it is expected he will recover.

—E. Crandall has sold the lot that he bought of D. Walsh to Mrs. Wellington Clarke, who intends to build a residence thereon.

—Thirty-two degrees above zero at 7 o'clock Monday morning. Rather cool for the 21st day of May.

—W. W. Clarke sells watches, jewelry, clocks and plated ware very low. Get his prices before you buy.

—We clip the following in regard to three well known Milton "Boys": Rock Falls is not behind her neighboring city in the extent and usefulness of her manufactures, and prominently asserts her rights to be heard on all questions which affect the general welfare of mankind. We desire to call attention to an enterprise in this place which is deserving of more than passing mention. We allude to the creamery package company of Rock Falls. This company are the best known manufacturers of standard creamery and butter tubs in the west. They make a specialty of furnishing the larger sized tubs for creameries, and the demand for their wares is sufficient to tax the resources of their establishment to the utmost. None but the best materials are used, and their productions are bright and attractive in appearance, and graceful to handle, and of which is more important are of perfect uniformity in weight and size, and strongly bound, and well finished, and a receptacle for the golden butter, instead of detracting from its value, add to its attractive appearance and commend it to the trade. They are also extensive dealers in staves, headings, hoops and other necessary parts of butter-tubs, and their wares are everywhere recognized as being the best, most durable, and most satisfactory of any manufactory in the west. This company is located in the Industrial Building, and use the latest and most approved machinery now known to modern science. They employ about thirty hands, all of whom are thorough workmen, and fully understand the labor that they are employed to perform. Mr. C. M. Ferris is the president of this company. Mr. W. L. Ferris the secretary, and Mr. H. J. Ferris the treasurer. All of these gentlemen are young, energetic business men. Full of experience, practical knowledge, and of that activity which is the invariable forerunner of progress they have made in introducing their wares, or the universal satisfaction with which they are produced are received. It is a happy augury of future triumph when we can note a continued increase in the demand for goods, and this is the daily experience of these gentlemen. And they may continue to grow and expand, as our sincere wish, and that they will continue to maintain the excellence of their wares is our firm conviction.

—D. Walsh sold his lot on Madison avenue last week, to E. Crandall.

—W. E. Lane has sold his wood-working machinery to a Milwaukee party.

—Will H. Whitford left this village on Thursday for Plainfield, New Jersey, where he has a place in the C. Potter, Jr., & Co., printing press works.

—C. W. Ferris, late of the Northern Pacific paper mill, has been embarked in the hardware business at St. Paul, the style of the firm being Stewart & Ferris. Mr. Ferris has the best wishes of his Milton friends for success in his new venture.

—If you want a good clock cheap, you can get it of W. W. Clarke.

Please Notice.
